Data Sheet

ECONOFLOW 59R

Economical vacuum hose for non-autoclave applications

DESCRIPTION

Econoflow 59R is a vacuum hose designed for marine, transportation, recreational and other F.R.P. industries where cost cutting is a primary concern. It can be used for low temperature oven or room temperature use and has an interlocking steel tube to prevent collapse while remaining flexible. The rubber jacket protects the vacuum bag. The bell shaped ferrules prevent hose lacerations at the fitting ends, extending hose life.

BENEFITS

- Inexpensive hose keeps cost under control where high performance is not required.
- Same basic design as high performance hoses ensure safe vacuum.
- Can be made up to 30 m (100 feet) long for large mold tool applications.

TECHNICAL DATA

Material type of inner tube Material type of hose Hose colour End fitting Service temperature Interlocking steel tube Rubber Translucent white 1/4 inch male NPT 135°C

SIZES

Product Reference	Nominal Internal Hose Diameter	Nominal Outer Hose Diameter	Available Length
ECONOFLOW 59R	9,5 mm (3/8 inch)	19 mm (3/4 inch)	up to 30 m (100 feet)

• Though standard sizes are 3 meters (10 feet), hose lengths can be customized to meet your specific requirements, contact Airtech for more information.
