

Data Sheet

VACTRAK

Vacuum manifold

■ DESCRIPTION

The Vactrak is a knitted technical tape designed to be used during the resin infusion process as vacuum manifold.

The Vactrak is composed of a very specific 100% polyester knitting which offers a very high vacuum permeability. As this knitting is already mounted on our double sided pressure sensitive tape Airhold 10 CBS, an advantage for the user is to save labour in the construction of the vacuum manifold.

■ TECHNICAL DATA

| | |
|----------------------|-----------|
| Material type | Polyester |
| Adhesive type | Rubber |
| Colour | White |
| Configuration of net | Knitted |
| Shelf life | 18 months |

■ SIZES

| Thickness | Width | Length |
|-----------|-------|--------|
| 3 mm | 43 mm | 25 m |

■ NOTES
