according to Regulation (EC) No. 1907/2006

## **RENLEASE® QZ 5111**

Print Date 27.08.2024

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier	
Trade name	: RENLEASE® QZ 5111
Unique Formula Identifier (UFI)	: A02A-E0TQ-M00R-P2GS

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the	:	Use in binder and release agents
Substance/Mixture		_

#### 1.3 Details of the supplier of the safety data sheet

Company Address	<ul> <li>Huntsman Advanced Materials (Europe) BV</li> <li>Everslaan 45</li> <li>3078 Everberg</li> <li>Balaium</li> </ul>
Telephone Telefax	Belgium : +41 61 299 20 41 : +41 61 299 20 40
E-mail address of person responsible for the SDS	: Global_Product_EHS_AdMat@huntsman.com

#### **1.4 Emergency telephone number**

Emergency telephone number			
Emergency telephone number	:	Centres Antipoison et de Toxicovigilance: ANGERS: 02 41 48 21 21 BORDEAUX: 05 56 96 40 80 LILLE: 0 825 812 822 LYON: 04 72 11 69 11 MARSEILLE 04 91 75 25 25 NANCY: 03 83 32 36 36 PARIS: 01 40 05 48 48 RENNES: 02 99 59 22 22 STRASBOURG: 03 88 37 37 37 TOULOUSE: 05 61 77 74 47 EUROPE: $+32$ 35 75 1234 France ORFILA: $+33(0)145425959$ ASIA: $+65$ 6336-6011 China: $+86$ 20 39377888 +86 532 83889090 India: $+$ 91 22 42 87 5333 Australia: 1800 786 152 New Zealand: 0800 767 437 USA: $+1$ 800-424-9300

### **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 127	
Flammable liquids, Category 2	H225: Highly flammable liquid and vapour.
Skin irritation, Category 2	H315: Causes skin irritation.
Specific target organ toxicity - single exposure, Category 3, Central nervous system	H336: May cause drowsiness or dizziness.
Aspiration hazard, Category 1	H304: May be fatal if swallowed and enters airways.
Long-term (chronic) aquatic hazard, Category 2	H411: Toxic to aquatic life with long lasting effects.

#### 2.2 Label elements

#### Labelling (REGULATION (EC) No 1272/2008)

Hazard pictograms :				
Signal word :	Danger			
Hazard statements :	<ul> <li>H225 Highly flammable liquid and vapour.</li> <li>H304 May be fatal if swallowed and enters airways.</li> <li>H315 Causes skin irritation.</li> <li>H336 May cause drowsiness or dizziness.</li> <li>H411 Toxic to aquatic life with long lasting effects.</li> </ul>			
Precautionary statements :	Prevention:			
	<ul><li>P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.</li><li>P273 Avoid release to the environment.</li></ul>			
	Response:			
	P301 + P310 IF SWALLOWED: Immediately call a POISON CENTER/ doctor.			
	P331 Do NOT induce vomiting. P370 + P378 In case of fire: Use drv sand. drv chemical or			
	P370 + P378 In case of fire: Use dry sand, dry chemical or alcohol-resistant foam to extinguish.			
	P391 Collect spillage.			
Hazardous components which must be listed on the label: Naphtha (petroleum), hydrotreated light; Low boiling point hydrogen treated naphtha				
	tea nghi, Lew sening point nyarogen treated naphtha			

١ methylcyclohexane n-octane hexane (containing < 5 % n-hexane (203-777-6))

according to Regulation (EC) No. 1907/2006

Version	Revision Date:
2.3	13.04.2023

Date of last issue: 16.10.2020 Date of first issue: 08.12.2017

Print Date 27.08.2024

#### 2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

SDS Number:

400001008255

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher

Toxicological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher

### **SECTION 4: First aid measures**

### 4.1 Description of first aid measures

General advice	:	Move out of dangerous area. Consult a physician. Show this safety data sheet to the doctor in attendance. Symptoms of poisoning may appear several hours later. Treat symptomatically. Get medical attention if symptoms occur.
Protection of first-aiders	:	First Aid responders should pay attention to self-protection and use the recommended protective clothing If potential for exposure exists refer to Section 8 for specific personal protective equipment. No action shall be taken involving any personal risk or without suitable training.
If inhaled	:	Consult a physician after significant exposure. If inhaled, remove to fresh air. Get medical attention if symptoms occur.
In case of skin contact	:	If skin irritation persists, call a physician. If on skin, rinse well with water. If on clothes, remove clothes.

according to Regulation (EC) No. 1907/2006

4.2 Most important symptoms and effects, both acute and delayed

None known.

#### 4.3 Indication of any immediate medical attention and special treatment needed

Treatment	: Treat symptomatical	ly.
-----------	-----------------------	-----

### **SECTION 5: Firefighting measures**

5.1	Extinguishing media		
	Suitable extinguishing media	:	Water spray Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical
	Unsuitable extinguishing media	:	Exercise caution when using a high volume water jet as it may scatter and spread fire
5.2	Special hazards arising from	the	substance or mixture
	Specific hazards during firefighting	:	Do not allow run-off from fire fighting to enter drains or water courses.
	Hazardous combustion products	:	No hazardous combustion products are known
5.3	Advice for firefighters		
	Special protective equipment for firefighters	:	Wear self-contained breathing apparatus for firefighting if necessary.
	Specific extinguishing methods	:	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
	Further information	:	Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. For safety reasons in case of fire, cans should be stored separately in closed containments. Use a water spray to cool fully closed containers.

according to Regulation (EC) No. 1907/2006

## **RENLEASE® QZ 5111**

Version Re 2.3 13.

Revision Date: 13.04.2023

SDS Number: 400001008255

Enriching lives through innovation

Date of last issue: 16.10.2020 Date of first issue: 08.12.2017

Print Date 27.08.2024

### **SECTION 6: Accidental release measures**

#### 6.1 Personal precautions, protective equipment and emergency procedures

	Use personal protective equipment. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Refer to protective measures listed in sections 7 and 8. Beware of vapours accumulating to form explosive concentrations. Vapours can accumulate in low areas.
--	--

#### 6.2 Environmental precautions

Environmental precautions	:	Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.
---------------------------	---	--

#### 6.3 Methods and material for containment and cleaning up

Methods for cleaning up	:	Contain spillage, and then collect with non-combustible
		absorbent material, (e.g. sand, earth, diatomaceous earth,
		vermiculite) and place in container for disposal according to
		local / national regulations (see section 13).

#### 6.4 Reference to other sections

For disposal considerations see section 13., See Section 1 for emergency contact information., For personal protection see section 8.

#### **SECTION 7: Handling and storage**

#### 7.1 Precautions for safe handling

Advice on safe handling	:	Do not breathe vapours/dust. Avoid exposure - obtain special instructions before use. Avoid contact with skin and eyes. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Take precautionary measures against static discharges. Open drum carefully as content may be under pressure. Dispose of rinse water in accordance with local and national regulations.
Advice on protection against fire and explosion	:	Do not spray on a naked flame or any incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapours). Use only explosion-proof equipment. Keep away from open flames, hot surfaces and sources of ignition.
Hygiene measures	:	When using do not eat or drink. When using do not smoke.

according to Regulation (EC) No. 1907/2006

		discussed v	vith the producers of the protective gloves.	
Skin	and body protection		clothing dy protection according to the amount and on of the dangerous substance at the work place.	
Resp	Respiratory protection : Use respiratory protection unless adequate local exhau ventilation is provided or exposure assessment demons that exposures are within recommended exposure guid Equipment should conform to EN 14387			
Fi	lter type	: Organic vapour type (A)		

### **SECTION 9: Physical and chemical properties**

### 9.1 Information on basic physical and chemical properties

Physical state	: Emulsion	
Colour	: colourless	
Odour	: solvent-like	
Odour Threshold	: No data is available on the product itself	f.
рН	: substance/mixture is non-soluble (in wa	ter)
Melting point/freezing point	: No data available	
Boiling point	: 84 °C	
Flash point	: -8,99 °C Method: Pensky-Martens closed cup	
Flammability (solid, gas)	: No data is available on the product itself	f.
Upper explosion limit / Upper flammability limit	: 7,7 %(V)	
Lower explosion limit / Lower flammability limit	: 0,6 %(V)	
Vapour pressure	: ca. 290 hPa (50 °C)	
Relative vapour density	: No data is available on the product itself	f.
Relative density	: ca. 0,71 (20 °C)	
Density	: ca. 0,71 g/cm3 (20 °C) Method: DIN 53217	
Solubility(ies) Water solubility	: practically insoluble (20 °C)	

according to Regulation (EC) No. 1907/2006

### **SECTION 10: Stability and reactivity**

#### 10.1 Reactivity

No dangerous reaction known under conditions of normal use.

#### 10.2 Chemical stability

Stable under normal conditions.

### 10.3 Possibility of hazardous reactions

Hazardous reactions : Vapours may form explosive mixture with air.

#### 10.4 Conditions to avoid

Conditions to avoid	: Heat, flames and sparks.

### 10.5 Incompatible materials

Materials to avoid	:	Strong acids
		Strong oxidizing agents

#### **10.6 Hazardous decomposition products**

#### 11.2 Information on other hazards

#### Endocrine disrupting properties

#### Product:

Assessment

: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher

### Experience with human exposure No data available

#### Toxicology, Metabolism, Distribution

No data available

#### **Neurological effects**

No data available

#### **Further information**

### Product:

Remarks

 Symptoms of overexposure may be headache, dizziness, tiredness, nausea and vomiting.
 Concentrations substantially above the TLV value may cause narcotic effects.
 Solvents may degrease the skin.

### **SECTION 12: Ecological information**
